

# Brazilian aerosol market jumps more than 9%, cracks the billion mark

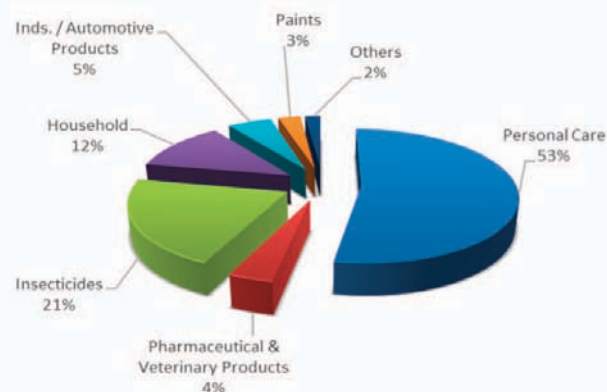

*Personal Care leads consumption in 2014*

Associação Brasileira de Aerossóis e Saneantes Domissanitários (ABAS) recently released its 2014 aerosol statistics for Brazil. The report revealed total aerosol consumption of almost 1.033 billion, up almost 9.2% from 2013, which was more than 946 million units. Personal Care dominated the product categories with 53% of all production; Deodorants accounted for 88% of that category. Insecticides followed at 21% with Household Care another major player at 12%.

Brazil imported 47% of its aerosols in 2014 while it produced 53% of its aerosols within its borders. In 2014, there were 5.1 aerosol products per home; ABAS predicts that there will be 7.3 aerosol products per Brazilian home by 2024, and that the total Brazilian aerosol market will reach 1.594 billion. *SPRAY*

## 2014 Brazilian aerosol market breakdown

## AEROSOL & BAG ON VALVE FILLING MACHINE SPECIALISTS

### MBC Semi-Automatic Benchtop 1" Internal Lab Crimper:

Light weight portable benchtop design.

Min / Max can Diameter: 35mm to 76mm

Min / Max can Heights: 63mm x 320mm

Tool-less can height adjustment.

Easy setup shim for valve compression setting.

Lever pivot can lift to ensure solid valve compression to can.

Pneumatically operated crimp via toggle control knob.

Easy access fully adjustable depth and diameter settings.

Uses common production crimping parts.

Depth and diameter adjustment tools included.
