

B.O.V. Solutions, Inc.

B.O.V. Solutions pioneers in Bag-On-Valve Packaging Technology since 1982. B.O.V. has a newly remodeled FDA/USDA certified compliant GMP facility located in Statesville, NC. The facility is also EPA registered, ATF licensed for alcohol products. B.O.V.'s talented and professional staff of experts insures customers the highest level of compliance and protocol standards are set higher than industry standards for our customers who demand and expect only the highest quality products and services. We formulate and re-formulate products for Bag-On-Valve. When your company's ready to upgrade to Bag-On-Valve packaging B.O.V. can get it done for you on time every time.

Services provided

In addition to providing contract packaging services B.O.V. Solutions is a Global supplier of B.O.V. components. Sourcing components from major suppliers around the world B.O.V. is able to obtain the best prices for their customers.

New Products

Saline's
Food Grade Products
Oil Only
Sunscreens

New Technologies or Patents:

B.O.V. has obtained exclusive rights to special dispensing B.O.V. systems enabling them to offer customers components others cannot like our actuator system capable of spraying pure cooking oils without the need of additives or propellants. We are the only packager capable of certifying how long cans remain pressurized. We work with valve companies to determine proper sealing parameters for their valves to cans. B.O.V. provides stability and compatibility testing for formulas, new and existing products. We are able to offer can coding by laser or state of the art bottom can coding, wrap lables, shrink labels, case coding and tracing abilities. From testing to full out production we have the experience to get you up and running with Bag-On-Valve.
