

Terco

Terco, Inc. is one of the leading manufacturers of aerosol filling equipment. With over 45 years of experience and customers in over 50 countries, our expertise includes systems from 5 to 450+ cans per minute. Our system for success includes a modular design configuration and regional technical support around the world (including both sales and spare part support).

In addition to the basic filling machinery, our product line includes a full range of equipment for aerosol production including container handling, conveying systems, water-bath systems, tip placing, cap placing, puck handling, and more. From a simple laboratory set-up to a completely integrated filling line our dedicated staff has the knowledge necessary to give your filling operations the most flexible filling system available.

With the popularity of pressurized barrier systems (including piston cans and bag-valves), we offer a full range of filling solutions to meet your product needs. Systems for dairy and pharmaceutical aerosols are also offered.

Key Personnel

Dan Ahrens - President
Bernie Brokke - Vice President, Sales
Fred Spohr - Sales Manager
Paul Ruge - Inside Sales

Services Provided

Filling systems for conventional aerosol, barrier systems, container handling, actuator/cap placement, puck handling and assembly machine.

New Products

Completely automated PLC aerosol filling machine with capabilities of automated product and propellant volumes, can diameter, can height, and indexing speed changeovers.
